INFORMATION

OUR GUARANTEE

We guarantee that all goods purchased from us will reach you safely and in good condition; be found true to name and prove entirely satisfactory or we cheerfully refund money paid.

THE D. HILL NURSERY CO., Inc.

D. Hill
President

4735

Elgin National Bank

CAPITAL $ 100000.00

ELGIN, ILL.

TO WHOM IT MAY CONCERN:

D. HILL, a pioneer in the evergreen nursery business, and successor, THE D. HILL NURSERY COMPANY, INC., of Dundee, Illinois, have for many years been valued customers of this Bank.

They have at Dundee, Illinois, one of the largest evergreen nurseries in the world, and the high quality of the product has brought to them a very large business, foreign and domestic.

They have the highest reputation for honesty and fair dealing, and we confidently recommend them to anyone desiring goods in their line.

THE ELGIN NATIONAL BANK,

Cashier.

FOUNDED 1903

DUNDEE STATE BANK

CAPITAL AND SURPLUS $120.000.00

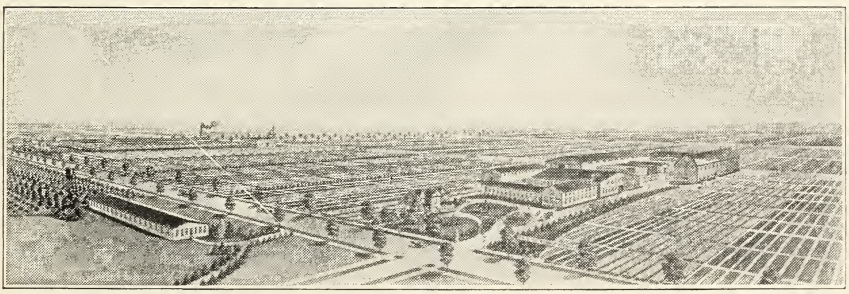
DUNDEE, ILLINOIS.

TO WHOM IT MAY CONCERN:

I am glad to recommend the D. Hill Nursery Company Inc. to anyone desiring to purchase evergreens etc. I have known Mr. David Hill for over thirty years, and his sons all their lives, and all have the highest reputation of square dealing.

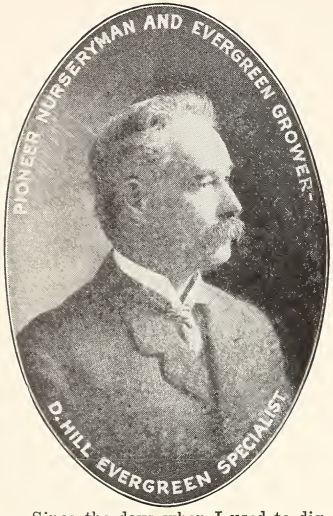
By careful attention to the quality of their stock, they have gradually built up an immense business, and are shipping stock to all parts of the world.

President



A Bird's-Eye View of the Hill Nurseries

Read the Story of How Hill's Evergreens Are Grown



Since the days when I used to dig and pack every order myself, my business has grown but my policy remains the same—"Give every customer complete satisfaction."

In planting Evergreens, you must make sure to obtain trees properly grown by a responsible company, preferably Evergreen Specialists.

We are the only extensive growers of Evergreens exclusively in America. This one line has our undivided time, attention, devotion and study. We are thus Evergreen Specialists in a sense which possesses a real value and significance.

In growing my Evergreens it is care—care—care all the way through from beginning to end. No nursery in the world gives such care at every stage of the growing, digging, handling and packing as I do. None of them insist on the little extras, such as I use to preserve the full life and strength of the Evergreens.

Experts are in charge of the different departments, and out of my years of experience, supplemented by careful growing records, has been developed the Hill scientific method of growing Evergreens, and today no other means are employed on my place.

Just a few of the important steps in growing Evergreens may be of interest to you to show why you can depend on Hill quality.

IMPORTANCE OF CAREFUL DIGGING

In preparation for shipment, Hill Evergreens are dug with the greatest care, by the use of specially constructed digging machines, which carefully remove the trees from the ground, retaining all the fine, fibrous feeding roots. This is one of the important steps in the successful handling of Evergreens. Customers living at a distance invariably express surprise and gratification at the excellent condition in which shipments arrive after long journeys. The Hill quality of stock and Hill method of digging, packing and handling—that's the answer.

PACKING

Hill Evergreens when prepared for shipment have the roots carefully packed in damp, genuine peat moss. Why? Because moisture cannot be conserved in any other way—a fact acknowledged by every tree expert. Then the Evergreens are put in a suitable box or bale, with plenty of room allowed for pure, fresh air, which prevents overheating. Thus they are in first-class condition when they reach you.

Hill "quality Evergreens" are the best obtainable. They are the accepted standard. There are none better. No other firm can supply you the same high quality Evergreens for the same price. Our enormous yearly output, together with the perfection of an organization trained to but one object—the cultivation of Evergreens—enables us to make our prices the lowest obtainable for satisfactory Evergreen trees.

SHIPPING

It's care all the way through, from beginning to end, that is exercised. And no nursery in the world gives such care at every stage of the growing, digging, handling and packing as we do. None of them insist on the little extras that we use to preserve life and strength. Buy your Evergreens direct from true Evergreen Specialists. Get your Evergreens when you want them, direct from the grower, at low grower's net prices, delivered fresh, properly grown, dug, handled and packed, and guaranteed to be first-class by a guarantee you can depend upon.

DOUBLE TRANS-PLANTING

Hill's Evergreens are twice transplanted before being offered for sale. This, together with the root pruning they receive, insures strong, sturdy, healthy stock. Root pruning and transplanting are the only known methods of producing an Evergreen tree that has masses of fine fibrous feeding roots.

1855 1924

GROWTH OF HILL'S NURSERIES

ROOT PRUNING

Shortly after Hill's Evergreens have been transplanted they are root pruned underground by a specially constructed horse-drawn implement that does not disturb the trees in any way, but benefits their growth.

CARE DURING GROWTH

Every year, almost the entire growing season, the various blocks of Evergreens are under constant cultivation. No weeds are allowed. Every particle of nourishment in the soil goes into the growing trees.

NO WEAKLINGS

Any tree that is a weakling will not survive the various processes described and will naturally be eliminated. This accounts for the high quality of Hill's Evergreens. This is the secret of Hill's Evergreens' certainty of growth.

To produce Evergreens that will measure up to the standard of Hill quality requires the most painstaking care and attention. Trained experts constantly watch and guard their growth.

THE HILL WAY

We ceaselessly endeavor to maintain a reputation for fairness, integrity and trustworthiness; to do a clean business, satisfactory alike to us and to our customers. Our best business comes from the men who send us their orders year after year; they know they can depend on us for good stock and an absolutely square deal. We are proud of these customers—proud of the reputation Hill's Evergreens have made, but we are not satisfied. Each succeeding year will find us trying to improve our methods in every department—growing, packing, shipping—to the end that we may better serve the people who look to us for Evergreens.

Our files—the treasured records of satisfactory business relations with tree planters all over the globe—are bulging with goodwill letters. These unsolicited words of praise for Hill's trees and Hill's methods are to us a source of endless satisfaction. We can please you as well.

Hill's Evergreen Windbreaks

The Farm Home before it was given the protection of a Hill's Evergreen Windbreak—The whim of the Blizzard Winds—Bleak—"Cold as an abandoned barn."

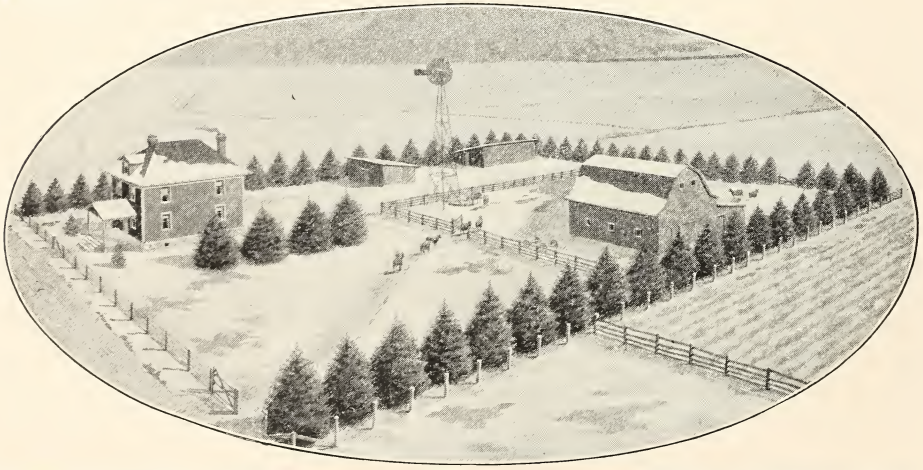
Evergreen Windbreaks are assets on any farm—especially in wind whipt, blizzard-blasted locations.

The beauty about an Evergreen Windbreak is that its value is ALWAYS INCREASING. It is one of he biggest PERMANENT assets any farm can ever have.

You can spend $3,000.00 to $5,000.00 for barns and equipment, and when the barns are built you will have added only $3,000.00 to $5,000.00 value to your farm.

But do you realize that you can invest as little as $100.00 for Hill's Evergreen Windbreak equipment for your farm that will quickly grow into a real $3,000.00 IN ADDED VALUE TO YOUR FARM? Do you know that it will do this in only a few years?

This is not my mere say-so. It is a statement based on the testimony of thousands of my farmer customers everywhere. In fact, the most treasured rewards of my experience as an Evergreen Specialist are the countless letters that I receive from farmers who, on my advice, have planted Hill's Evergreen Windbreaks GENEROUSLY on their farms and who tell me how much protection and profit they have reaped as a result.



The same Farm Home after given the blanket-like protection of a Hill's Evergreen Windbreak—Warm—Free from sweep of Wind—worth hundreds of dollars more to owner—or buyer.

Hill's Evergreen Windbreaks

The comforting influence of an Evergreen windbreak can scarcely be realized unless you have stepped behind a row of sturdy Evergreens on a blustering winter's day. In farming sections, especially in the prairie states, the Evergreen windbreak has long been recognized as an important factor in protecting the home, stock and buildings.

If you are interested in farm property you will find an Evergreen windbreak a wonderful investment. We have in our files letters from farm owners all over the country testifying they have received one to five thousand dollars more for their farms when planted with the Hill Evergreen Windbreaks.

Any farm or home exposed to winds will find Evergreen windbreaks a remarkable source of comfort.

How to Build Evergreen Windbreaks

There are three best ways to build an Evergreen Windbreak. The same results are accomplished with each method; the only difference is in the time it takes. You will not be disappointed in any of these planting arrangements. Just look over the plans submitted and choose the plan best suited to your needs.

PLAN NO. 1
Plant 10 feet apart

O————O————O————O————O

Results in Only Six Years' Time

A popular and economical plan is to space the trees 10 feet apart in a single row, which gives a windbreak in six years' time. This spacing gives the correct amount of room for the trees to develop. At the end of six years the branches will touch, and no thinning will ever be required. On this basis figure 100 trees to each 1000 feet.

PLAN NO. 2
Plant 5 feet apart

O———O———O———O———O———O———O

Results in Only Four Years' Time

If you desire quicker results, space the trees 5 feet apart in a single row. At the end of five years take out every other tree and plant elsewhere. After this no further thinning will be required. On this basis 100 trees will plant 500 feet.

PLAN NO. 3
Plant 2½ feet apart

O—O—O—O—O—O—O—O—O—O—O—O—O

Results in Two Years' Time

Where almost immediate results are wanted, space the trees in a single row, 2½ feet apart. This gives a Windbreak in the shortest possible space of time. At the end of three years take out every other tree, leaving trees 5 feet apart. After four years more, thin trees to 10 feet apart. After this no further thinning will be required. On this basis figure 100 trees to each 250 feet.

Evergreens give protection in winter, the time when most needed.

NORWAY SPRUCE

THE GREAT WINDBREAK TREE

PRICE: TWICE TRANSPLANTED TWICE ROOT-PRUNED STOCK

			25	50	75	100
Medium Size	10 to 12	in.	$ 8.25	$16.00	$23.25	$30.00
Large Size.	1 to 1½	ft.	9.50	18.50	26.00	35.00
Extra Large	1½ to 2	ft.	13.25	26.00	38.25	50.00
Super Size..	2 to 3	ft.	17.00	33.50	49.50	65.00

Windbreak Varieties

You can have a Hill Windbreak like this—at very low cost—in no time at all.

NORWAY SPRUCE (Picea Excelsa)

We are growers on the very largest scale of this popular fast growing Evergreen. Our annual transplantings now exceed over 500,000 plants every year. Probably seventy-five per cent. of all Evergreen Windbreaks are Norway Spruce. It is a general favorite everywhere.

It is a fast, upright grower of symmetrical conical shape, as illustrated. Grows dense, compact and windproof, reaching a height of fifty to sixty feet. Its color is a beautiful green summer and winter.

Price			25	50	75	100
Medium Size	10-12	inch	$ 8.25	$16.00	$23.25	$30.00
Large Size	1-1½	feet	9.50	18.50	26.00	35.00
Extra Large	1½-2	feet	13.25	26.00	38.25	50.00
Super Size	2-3	feet	17.00	33.50	49.50	65.00

RED CEDAR (Juniperus Virginiana)

Most everyone knows the Red Cedar or Juniper. It is native to a large part of the United States. We have developed the best type for Windbreak purposes, a very bushy, dense tree.

In summer its color is a light green, which changes to purplish bronze in winter. In season bright blue and silver colored berries grow on the tree abundantly. It will average 24 to 30 feet in height when full grown. See picture on page 14. Adapted for planting in all sections of the country.

Price			25	50	75	100
Large Size	1-1½	feet	$13.25	$26.00	$38.25	$50.00
Extra Large	1½-2	feet	17.00	33.50	49.50	65.00

Hill Evergreen Windbreaks in the making. Plant some on your farm this year.

SCOTCH PINE—One of the fastest growing Evergreens.

Wealthy Stock Farmer Writes:

"As to what my Hill's Evergreen Windbreak is worth to my farm, will say that $5,000 could not buy my windbreak. It encloses about five acres of ground around our buildings. We set out 350 Evergreens. We have two rows on the north and west and single rows on the south and east. We fed 20 steers outside there last winter, and we could not have done the feeding in the open."

A. CHARLSON, Goodhue Co., Minn.

SCOTCH PINE

(Pinus Sylvestris)

A very rapid, upright grower, having long, stiff blue-green foliage. Satisfactory for sandy dry soil or exposed locations. Grows into a large tree.

We obtain our seed from Sweden, where the best form grows, exactly suited to American conditions. Makes well formed ornamental specimens, and is one of the best and most widely used Evergreens for windbreaks.

Price	25	50	75	100
1 to 1½ feet	$9.50	$18.50	$26.00	$35.00

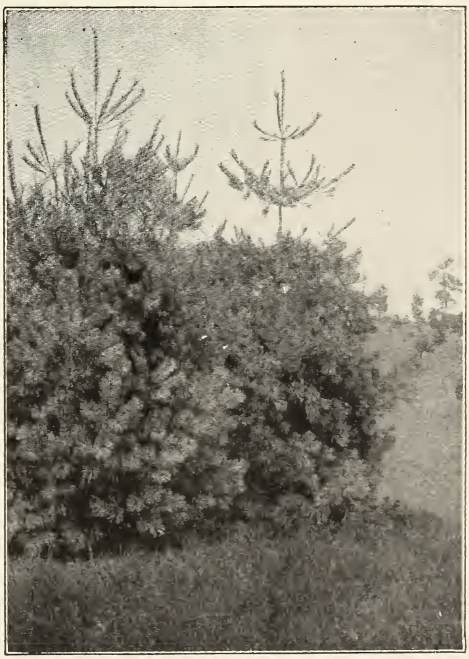
WHITE PINE

(Pinus Strobus)

It readily adapts itself to both dry and moist soils, for it is found on the poorest and driest sand, and on steep, rocky slopes, and also on moist clay flats and river bottoms.

It grows rapidly; each season's growth is plainly noticeable as shown in this picture. Has long flexible needles, whitish beneath.

Price	25	50	75	100
1 to 1½ feet	$9.50	$18.50	$26.00	$35.00
1½ to 2 feet	13.25	26.00	38.25	50.00



White Pine (Pinus Strobus.)
Each tier of branches is one year's growth.

Specimen Evergreen Showing Hill Method of Ball and Burlap

Hill's Specimen Evergreens for Landscape Work

Hill's Specimen Evergreens are all perfect specimens, having good roots and symmetrical tops, owing to frequent transplanting, constant cultivation and root-pruning, shearing and staking.

In comparing our prices with those of other growers, remember that height alone cannot by any means establish values. An Evergreen tree grown close and crowded in the row may be exactly the same height as a Hill Specimen Evergreen, but will not be as heavy, compact, symmetrical, or have as good roots.

In some localities it is impossible to dig Evergreens with a solid ball of earth on account of loose, sandy, rocky soil, which will not adhere to the roots. Our rich black prairie loam contains just enough clay to give it good texture and when interwoven with masses of fine, fibrous roots, easily holds in place. As additional protection, each earth ball is securely tied in burlap.

Constant transplanting and root-pruning gives Hill's Specimen Evergreens masses of fine, fibrous feeding roots, which together with shearing, results in heavy, bushy, symmetrical tops and insures the success of Hill's stock in the hands of the planter.

							Each	10
Abies Douglassi (Douglas Fir)								
Our plants are the type from Northern Colorado, the seed being collected in deep gorges of high altitudes where the blue and silvery foliage is characteristic, being compact and symmetrical in growth.								
1-1½	feet	xx	2	Times	Transplanted	B&B	$ 2.00	$ 17.50
1½-2	"	xx	2	"	"	"	2.25	20.00
2-3	"	xxx	3	"	"	"	3.50	30.00
Abies Tsuga Canadensis (Hemlock)								
The value of our strain of Hemlocks is based on seed selected from Northern sources only, insuring hardiness and free, graceful upright growth.								
1-1½	feet	xx	2	Times	Transplanted	B&B	$ 1.50	$ 12.50
1½-2	"	xx	2	"	"	"	1.75	15.00
2-2½	"	xxx	3	"	"	"	3.00	27.50
Juniperus Canadensis (J. Communis Depressa)								
The well known, valuable, many-stemmed Dwarf Juniper. Rarely exceeds 2 feet in height, good form of Juniper for ground cover. It is at home on sandy or gravelly hillsides fully exposed to the sun, where single plants often reach 15 feet or more in diameter.								
10-12	inch	xx	2	Times	Transplanted	B&B	$ 2.75	$ 25.00
1-1½	feet	xx	2	"	"	"	3.25	30.00

Each x indicates one transplanting. B&B signifies balled and burlapped.
5 of same variety and size at 10 rate.

These tall trees are Red Cedars trimmed to make them grow narrow and compact.
Prices of Red Cedars on page 13.

Juniperus Canadensis

Juniperus Glauca (Silver Cedar)

								Each	10

Juniperus Chinensis Pfitzeriana (Pfitzer's Juniper)

Originated some years ago in Pfitzer's Nursery, near Berlin, Germany. Introduced by Ludwig Spaeth into general cultivation, from whom we obtained our original plants for propagating. A wide, plumose and graceful evergreen of healthy blue-green foliage. Branches grow horizontal from the stem. Height, 6 to 10 feet.

1½-2	feet	xx	2	Times	Transplanted—B&B			$ 3.00	$ 27.50

Juniperus Virginiana (Red Cedar)

Pyramidal habit, dark green to bluish foliage. Our stock is the hardy Northern strain. One of the most useful and characteristic trees of our American landscapes, rivaling the Italian Cypress in beauty. Adapted for planting in all sections of the country. The propagation of this valuable Conifer has been a specialty with us for many years and we exercise great care in the selection of our strain of seed. See page 14 for picture.

1½-2	feet	xx	2	Times	Transplanted—B&B			$ 1.75	$ 15.00
2-3	"	xxx	3	"	"	"		2.75	25.00
3-4	"	xxx	3	"	"	"		3.50	30.00

Juniperus Virginiana Glauca (Silver Cedar)

In this variety, the whole of young growths are of almost silvery whiteness, which changes to pale glaucous green in winter.

1½-2	feet	xx	2	Times	Transplanted—B&B			$ 3.25	$ 30.00
2-3	"	xx	2	"	"	"		5.50	50.00

Picea Alba (White Spruce)

Described by Bailey, the eminent horticulturist, as "A native of the Northern parts of America." Derives the name White Spruce due to its light, frosty green foliage, slightly tinted with blue. Thrives to the best advantage in the colder climates, north of Philadelphia or St. Louis. Although native throughout a wide range, the best types prevail throughout Northern Wisconsin, from where our seed is gathered from carefully selected grounds.

1-1½	feet	xx	2	Times	Transplanted—B&B			$ 1.75	$ 15.00
1½-2	"	xx	2	"	"	"		2.00	17.50
2-3	"	xxx	3	"	"	"		4.00	35.00

Picea Canadensis (Black Hill Spruce)

Somewhat similar and closely related to White Spruce, but much more symmetrical, compact and bushy. Hardiest of all Spruces. A native of the Black Hills of South Dakota and first introduced into commercial culture by Mr. D. Hill many years ago, since which time it has been fully tested in all parts of the country and found satisfactory. Foliage varies from green to bluish tint. See page 14 for picture.

1-1½	feet	xx	2	Times	Transplanted—B&B			$ 2.00	$ 17.50
2-3	"	xxx	3	"	"	"		5.50	50.00

Picea Excelsa (Norway Spruce.) See picture on page 8.

1-1½	feet	xx	2	Times	Transplanted—B&B			$ 1.25	$ 10.00
1½-2	"	xx	2	"	"	"		1.75	15.00

Each x indicates one transplanting. B&B signifies balled and burlapped.
5 of same variety and size at 10 rate.

Black Hill Spruce

Red Cedar

COLORADO BLUE SPRUCE

(Picea Pungens Glauca) Selected Blue Type

(See Inside Back Cover)

Variety						Each	10
2-3 feet	xxx	3	Times	Transplanted—B&B		$10.00	$ 90.00

Pinus Austriaca (Austrian Pine)

Is sometimes called Black Pine. Has rich glossy dark foliage. Well adapted for planting in cities, as it is highly resistant to smoke. A fast growing dense tree of wonderful adaptability.

1-1½ feet	xx	2	Times	Transplanted—B&B		$ 1.50	$ 12.50
1½-2 "	xx	2	"	"	"	1.75	15.00

Pinus Banksiana (Jack Pine)

Fast growing pine, well adapted to rough gravelly and sandy locations. Not particularly recommended for ornamental use, but largely for planting on dry sandy soils and hot climates such as certain sections of Nebraska, Kansas and Dakota. Grows and thrives on barren soils where other trees could not live.

1-1½ feet	xx	2	Times	Transplanted—B&B		$ 1.25	$ 10.00

Pinus Strobus (White Pine.) Picture on page 11.

On account of its rapid growth and low price, White Pine is in heavy demand for landscape screens and backgrounds. We maintain a large stock of well rooted trees.

1-1½ feet	xx	2	Times	Transplanted—B&B		$ 1.25	$ 10.00
1½-2 "	xx	2	"	"	"	1.50	12.50

Each x indicates one transplanting. B&B signifies balled and burlapped.
5 of same variety and size at 10 rate.

This picture shows the many different shapes and habits of Evergreens. Some tall, some low and creeping, some blue green, some golden, some deep green and some light, but all beautiful.

The Compact regular growing characteristics of Hill's Mugho Pine are clearly shown in this picture taken on our grounds.

Variety	Each	10

Pinus Ponderosa (Ponderosa Pine)

Sometimes called Bull Pine or Western Yellow Pine. The most widely distributed Evergreen of North America. The type found growing in the Black Hills of South Dakota, from where we obtain our seed, is a much superior type, being a hardy, free, upright grower. Very deep rooted and drought resistant. It is a handsome, ornamental tree, with interesting long needles.

1-1½	feet	xx	2	Times	Transplanted—B&B		$ 1.25	$ 10.00
1½-2	"	xx	2	"	"	"	1.50	12.50

Pinus Sylvestris (Scotch Pine)

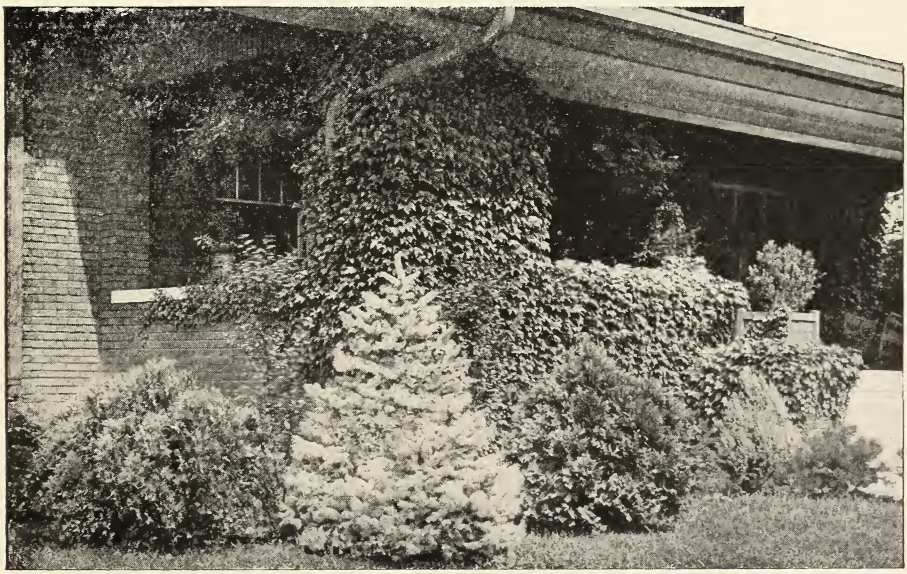
We obtain our seed from Sweden, where this form grows best and exactly suited to American conditions, in contrast to seed from Southern Germany which is low in price, abundant, but produces very inferior stock. Picture on page 10.

1-1½	feet	xx	2	Times	Transplanted—B&B		$ 1.25	$ 10.00

Thuya Occidentalis (American Arbor Vitae) (See Back Cover)

1½-2	feet	xx	2	Times	Transplanted—B&B		$ 1.50	$ 12.50
2-3	"	xxx	3	"	"	"	2.75	25.00

Each x indicates one transplanting. B&B signifies balled and burlapped.
5 of same variety and size at 10 rate.



At the left is an Arbor Vitae, next Colorado Blue Spruce, Arbor Vitae, Silver Cedar and Hill's Hill's Mugho Pine. All the varieties and many others are described in these pages.

Evergreens provide year around beauty for home grounds that no other form or variety of tree or shrub can impart. Many of the finest farm homes and country estates are well planted with Hill's choice Evergreens. We grow varieties suitable for windbreaks, hedges and lawn planting.

Hill's Evergreens

Shown in Natural Colors on Page 2

FOUR VALUABLE NEW INTRODUCTIONS

HILL'S SILVER JUNIPER

(Juniperus Scopulorum)

Beautiful silvery blue color. Narrow, compact, and symmetrical. It has one single stem, in contrast to some varieties of Junipers with several stems. This makes it safe from heavy snows and winds. The inner foliage does not turn brown.

						Each	10
1-1½	feet	xx	2	Times	Transplanted—B&B	$ 2.00	$17.50
1½-2	"	xxx	3	"	" "	3.75	35.00

HILL'S MUGHO PINE

(Pinus Mugho Compacta)

Our Pinus Mugho is the genuine true dwarf type, many stemmed, compact, with good dark green color, which it retains throughout the winter. Many inferior forms of this variety, offered as Pinus Mugho, are on the market, some of which are loose, open growers and some of upright, irregular habit. The strain we offer is the true dwarf, compact type, and the seed (from the Riesenbirge Range in Silesia), is obtainable only at great expense in small quantity, because of its scarcity. When obtainable, the true seed costs as high as $15 per pound, in contrast to $1.50 per pound for the common form. Rarely grows over 3 to 6 feet high.

						Each	10
8-10	inch	xx	2	Times	Transplanted—B&B	$ 1.75	$15.00
10-12	"	xx	2	"	" "	2.75	20.00
1-1½	"	xxx	3	"	" "	3.25	30.00
1½-2	"	xxx	3	"	" "	4.25	40.00

HILL'S PYRAMIDAL ARBOR VITÆ

(Thuya Occidentalis Pyramidalis)

Unfortunately, many inferior types are on the market. Our carefully selected strain which we have improved through years of careful selection and propagation, is of noteworthy value, being the genuine narrow, pyramidal type. It is an especially hardy, vigorous grower, forming a compact, narrow column of dense, dark green foliage.

						Each	10
1½-2	feet	xxx	3	Times	Transplanted—B&B	$ 3.25	$30.00
2-3	"	xxx	3	"	" "	4.25	40.00

HILL'S WAUKEGAN JUNIPER

(Juniperus Sabina Prostrata)

An interesting, new creeping Juniper. Very low and compact, making a dense mat. Soft blue color in spring and summer, changing to a rich purple color in late fall. The contrast of colors at different seasons gives it a distinction not found in other varieties. It grows close to the ground, not over six or eight inches high, but spreads out a dozen feet or more, depending upon soil and planting conditions.

						Each	10
1-1½	feet	xxx	3	Times	Transplanted—B&B	$ 5.00	$47.50

Each x indicates one transplanting. B&B signifies balled and burlapped.
5 of same variety and size at 10 rate.

These varieties and other Hill introductions are more fully described in booklet, "Hill's Evergreen Introductions." Copy free.

Small Evergreens for Transplanting

Customers having extensive grounds to develop will be interested in these small trees to plant out into rows and grow on. These sizes are not recommended for immediate use. Cultural directions with each shipment.

HILL'S EVERGREEN SEEDLINGS

Seedlings should be ordered in bundles of 50. Special directions with each order.

	Inch	100	1000
Abies Concolor (Concolor Fir)	4-6	$10.00	$90.00

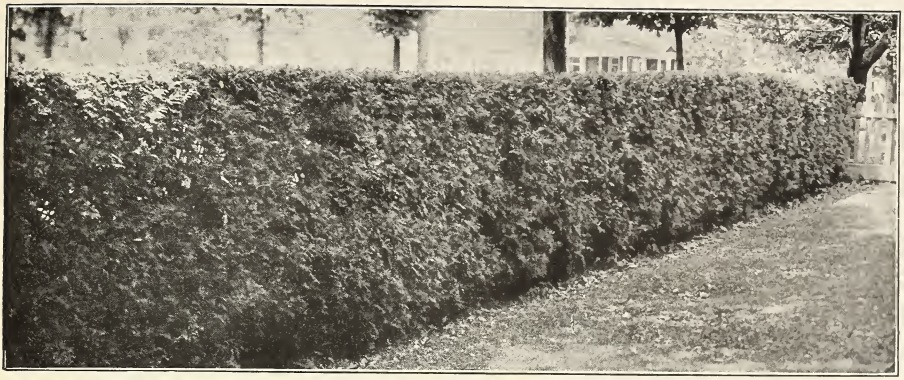
50 of same variety and size at 100 rate; 500 at the 1000 rate

This picture shows once transplanted Hill Evergreens that have been grown in beds as shown here, being four or five years old.

Hill's Evergreen Hedges



Nothing like an Arbor Vitae hedge to stop the dust blowing in from the road.

Attractive, Durable, Inexpensive

The wide variety of uses an Evergreen hedge will serve on your grounds is almost without end. The various shapes and sizes into which an Evergreen hedge may be trimmed makes it possible to grow a hedge in almost any situation. It will be found that an Evergreen hedge is just as effective in keeping out intruders as a fence. The branches soon form an almost impenetrable barrier.

Planting and Cultural Care

Trees one to two feet such as those offered below ought to be planted about one foot apart. Such an arrangement provides plenty of room for development and still gives the hedge a compact appearance right from the start. In trimming the hedge, the item of first importance is to see that the bottom part has access to air and sunlight. Train in an oval shape or in some manner so that the bottom of the hedge is wider and tapers toward the top.

American Arbor Vitae (Thuya Occidentalis)

The National Hedge of America

Owing to its compact appearance when sheared, it is without doubt one of the best Evergreens for hedge purposes. It forms a most beautiful, compact hedge in a remarkably short time, that will withstand the ravages of time and storm.

Its main features are hardiness, adaptability to shearing, and attractiveness of foliage. The foliage is a deep, velvety green, soft, flat and fern-like, produced abundantly. See colored picture of this tree on back cover of catalog.

Price		25	50	75	100
Medium Size	10 to 12 inch	$8.25	$16.00	$23.25	$30.00
Large Size	1 to 1½ feet	9.50	18.50	26.00	35.00

Red Cedar

(Juniperus Virginiana)

Almost everyone knows the Red Cedar or Juniper. It is native to a large part of the United States. We have developed the best type for hedge purposes—a very bushy, dense tree.

In summer its color is a light green, which changes to purplish bronze in winter. In season bright blue and silver colored berries grow on the tree abundantly. It will average 20 to 30 feet in height when full grown, unless kept low by trimming.

	25	50	75	100
1 to 1½ feet	$13.25	$26.00	$38.25	$50.00
1½ to 2 feet	17.00	33.50	49.50	65.00

With a little trimming Red Cedar can be made into any shape desired.

A Few Testimonials

I spend comparatively little money for expensive catalogs and advertising, but depend mostly on satisfied customers. I find it better business to put most of the money into growing and handling the trees right. This policy may be old-fashioned, but I prefer to go slower and have every customer my friend, than to try to go too fast and have a lot of dissatisfied customers. I print a few testimonials and take a great deal of pride in them because they show my efforts are in the right direction.

"HILL'S EVERGREENS IN DIXIE"

"The Norway Spruce you sent me in the Spring are all living and are very nice ones. As I wrote you, I live on the highway, and I think the trees will be a credit to your nursery.

"I think you sent me a mighty nice collection for the price. I am well pleased with them. Thank you very much."

Mrs. J. W. Orr, Hartselle, Ala.

"WOULD NOT BE WITHOUT HILL'S EVERGREEN'S FOR $1,000.00"

"I consider that my Evergreen Windbreak has increased the sale value of my farm three or four hundred dollars, yet if I knew I was to be without an Evergreen Windbreak, it could not be bought for a thousand dollars. It is a practical investment for any farmer."

Fred Doehler, Chadwick, Ill.

"I received the trees. They were in fine shape. I was surprised to see such fine trees. I thank you for the interest you have shown in them."

A. L. Wolford, Greenwich, Ohio.

"LIKES HILL'S PACKING"

"I received Evergreens all O. K., and thank you for packing them so well. They were just fine."

Chas. Metty, Middletown, Ohio.

"MAKES FINE WINDBREAK OR HEDGE"

"The Evergreens that I purchased from you have done exceedingly well. Out of over 300 I lost six, and now can scarcely tell where the six are out, as the others have closed up the gaps. I can certainly recommend Hill's Evergreens to anyone desiring a fine windbreak or hedge."

Valmore Parker, Robinson, Ill.

"Tree came allright. I never had a tree delivered in better order. I was well pleased with my trees. With highest regards, I remain,"

C. L. Gillispie, Norborn, Mo.

I received the trees that I had ordered from you the 21st of April. They were in fine condition. I wish to thank you for the Red Cedars that you gave me."

H. L. Stewart, Beeler, Kans.

"WINDBREAK PLANTER WELL PLEASED"

"The 250 Arbor Vitaes for hedge which you sent us this Spring were on the road over a week, but looked as fresh as though they had just been pulled out of the nursery. We thank you very much for the way you pack your trees. It sure is a pleasure to plant trees looking as fresh and healthy as these did.

"Thanking you again for your kind and generous dealing, we are,"

Peter Ulrich & Sons, Winside, Nebr.

Money in Growing Xmas Trees

Supply the Xmas Tree Market in Your Locality With Home Grown Trees

The growing of Xmas Trees offers a good money making opportunity for anyone located near a good sized city. There is no trouble to sell your crop if you get a few samples on display. Most people will pay double the price of shipped-in wild trees for nice home-grown trees. The home grown trees are fresh dug, so they keep their needles and stay fresh for many days.

Almost any land, except swamp land, will grow Xmas Trees. The Norway Spruce is the best variety to use. It grows fast and is easy to handle. On account of the tremendous number of Norway Spruce we grow each year, we are able to keep prices down.

Trees, once transplanted, are large enough to set out into rows. Such trees are four years old from seed. In two years some trees will be ready for sale at 2½ or 3 feet. At end of three years you will have trees 3 feet, 4 feet, and some larger. The older the trees get the faster they grow, usually 3 to 5 feet is the size in demand. Set the trees about two feet apart in the row and the rows three feet apart. This will allow you to cultivate with a horse cultivator.

			100	1000
Norway Spruce	8 to 10 inch	(x)	$16.00	$140.00

Each x indicates one transplanting.
50 of same variety and size at 100 rate, 500 at 1000 rate.

NOTE.—We can also supply twice transplanted (xx) Norway Spruce in lots of 500 or more for Xmas Tree plantations at reduced rates. Write for prices.

The proper time to plant these trees is April or May. Orders must be in early to insure filling.

Selling prices run from $1.00 up to $5.00 per tree. Be the first in your community to take this opportunity. Wild trees are getting scarce and many states have already passed laws prohibiting the cutting of wild trees from the woods.

Full planting instructions furnished.

Hill's Choice Roses

"Everyone Should Plant a Dozen Roses"

Realizing the popular demand for a general assortment of choice Roses, we are pleased to announce we are prepared to take care of our friends and customers in excellent shape. Stock is of strictly first-class quality, carefully graded and properly handled. Each and every bundle plainly labeled. Give us a trial order. We are confident we can please you.

H. W. indicates Hybrid Wichuriana, H. P. indicates Hybrid Perpetual, H. R. indicates Hybrid Rugosa, H. T. indicates Hybrid Tea, H. C. indicates Hybrid China. 5 of the same variety at the 10 rate.

CLIMBERS

Following is an assortment of Climbing Roses including the most popular and satisfactory varieties all No. 1 three stems and up, cut back to 24 inches. These are on their own roots, very carefully graded.

Variety		Each	10
Cl. American Beauty (H. W.)	No. 1	75c	$ 6.50
Beautiful crimson, almost exactly like American Beauty. Flowers three to four inches. Blooms heavily on long stems. Makes a fine plant for cut flowers.			
Crimson Rambler (H. P.)	No. 1	75c	6.50
Deep crimson. One of the best known and most popular ramblers.			
American Pillar	No. 1	75c	6.50
Rosy pink, single flowers. Blooms early, often times again in the Fall. Very vigorous in growth and producing an almost solid mass of blooms.			
Silver Moon	No. 1	75c	6.50
Very large, semi-double. Best of the white climbing Roses. Yellow stamens, shining foliage.			
Tausendschon	No. 1	75c	6.50
Colors, various shades from white to deep pink. Almost thornless canes. Excellent for arbors, arches, etc.			
Cl. Orleans	No. 1	75c	6.50
Color, geranium red with white centers. Produces very large flower heads.			

HYBRID PERPETUALS

The following are all No. 1 three stems and up, 24 inches, except where noted. These are all strong two year budded Roses, excellent quality and at reasonable prices.

Variety		Each	10
Prince Camille de Rohan (H. P.)	No. 1	75c	$ 6.50
Very dark velvety crimson, sometimes called Black Prince. Said to be the darkest red Rose. An excellent variety.			
Magna Charta (H. P.)	No. 1	75c	6.50
Extra large full flowers of unusual depth. Rosy-pink in color.			
Gen. Jacqueminot (H. P.)	No. 1	75c	6.50
Bright shining crimson, very fragrant. Free bloomer.			
Gruss An Teplitz (H. C.)	No. 1	75c	6.50
Dark rich crimson. One of the brightest red roses. Extra hardy. These will be cut back to 18 inches.			
Paul Neyron (H. P.)	No. 1	75c	6.50
Deep rosy pink. Full double blooms with spicy fragrance. Borne on strong upright stems.			
Ulrich Brunner (H. P.)	No. 1	75c	6.50
Bright cherry red. Very large heavy flowers.			
John Hopper (H. P.)	No. 1	75c	6.50
Hardy abundant bloomer. Solid and regular flowers, perfectly double. Clear rosy pink, very fragrant.			
Frau Karl Druschki (H. P.)	No. 1	75c	6.50
One of the purest white Roses known. Sometimes known as Snow Queen. Very large blooms.			
Conrad F. Meyer (H. R.)	No. 1	75c	6.50
Silvery rose. Very vigorous grower, extremely fragrant with large buds, very double.			

HYBRID TEA ROSES

The following are all two year No. 1, cut back to 18 inches. Budded stock.

Variety		Each	10
Radiance (H. T.)	No. 1	75c	$ 6.50
Pink, darker on the inner surface of the petals than on the margin.			
Red Radiance (H. T.)	No. 1	75c	6.50
Similar to the Radiance Rose, except color, which is a clear cerise red. Color holds well. Extra large blooms, double.			
Maman Cochet (Pink)	No. 1	75c	6.50
Rich coral pink, shaded with rosy crimson. Makes long pointed buds.			
Maman Cochet (White)	No. 1	75c	6.50
Pearly white. Outside petals tipped pink late in the season. Very fragrant and of large size.			

RAMBLERS—WICHURIANA HYBRIDS

These are strong two year No. 1 plants on their own roots. We offer the leading well known popular varieties.

Variety		Each	10
Excelsa (H. W.)	No. 1	75c	$ 6.50
Double crimson maroon, the tips changing to scarlet.			
Dorothy Perkins (H. W.)	No. 1	75c	6.50
Shell pink flowers profusely in large clusters. Very fragrant and lasting.			
Hiawatha (H. W.)	No. 1	75c	6.50
Intense deep crimson with petals shading to pure white at the base. Single.			
White Dorothy Perkins (H. W.)	No. 1	75c	6.50
Similar to Dorothy Perkins, but white.			
Gardenia (H. W.)	No. 1	75c	6.50
Rich golden yellow flowers. Very hardy.			

RUGOSA HYBRIDS

Two year No. 1 plants on their own roots.

Variety		Each	10
Hansa	No. 1	75c	$ 6.50
Large double reddish, violet flowers. Strong grower and prolific flowers.			
Belle Poitevine	No. 1	75c	6.50
Large double flowers of clear magenta pink, borne in trusses; plant vigorous and free flowering.			
New Century	No. 1	75c	6.50
Clear flesh pink with light red center, petals sometimes bordered creamy white. Very full double flowers of good size.			
Sir Thomas Lipton	No. 1	75c	6.50
Double pure white flowers, borne in long stems in great profusion in early summer. A vigorous grower.			

Hill's Ornamental Flowering Shrubs

The beauty of shrubs lies in their beautiful flowers, highly colored berries and bark and twigs of various hues. It is our aim to produce only the useful and hardy types, worthy of general cultivation in our climate. A careful study of these short descriptions will make it possible to plan a succession of bloom from early spring until late in the fall.

Japanese Barberry

(Berberis Thunbergii)

Small foliage, bright green in color, turning to orange and red in autumn. Scarlet berries hang on the branches all winter. Valuable for low hedges. May be pruned to any form or height. Grows 4 to 6 feet high.

Price	10	100
10 to 12 inch	$3.00	$25.00
1 to 1½ feet	4.00	30.00

Amoor River Privet—North

(Ligustrum Amurense)

Hardy. Leaves small and nearly evergreen. Valuable for hedges. Grows 8 to 12 feet tall.

Price	10	100
1 to 1½ feet	$2.50	$20.00
1½ to 2 feet	3.25	27.50
2 to 3 feet	4.00	35.00

Japanese Bush Honeysuckle

(Lonicera Morrowi)

Leaves dark green. White flowers bloom in May, followed by red fruit in August. Grows 8 to 12 feet tall.

Price	10	100
3 to 4 feet	$5.00	$40.00

Tatarian Honeysuckle

(Lonicera Tatarica)

Small, bright red flowers are followed by tiny attractive red or orange berries.

Price	10	100
3 to 4 feet	$5.00	$40.00

Sweet Scented Mock Orange

(Philadelphus Coronarius)

White flowers in May. Grows 10 feet tall.

Price	10	100
2 to 3 feet	$5.00	$40.00

Golden Elder

(Sambucus Canadensis Aurea)

Foliage a golden yellow all summer. Flowers white, followed by purplish red berries. Grows 6 to 8 feet tall.

Price	10	100
3 to 4 feet	$6.00	$50.00

Cut Leaved Elder

(Sambucus Nigra Laciniata)

Finely cut leaves, abundant white clusters of flowers in June and July, followed by berries.

Price	10	100
3 to 4 feet	$5.00	$40.00

Golden Ninebark Spirea

(Spirea Opulifolia Aurea)

Golden yellow leaves. Double white flowers bloom in June. Very effective in shrubbery plantings. Grows 8 to 12 feet tall.

Price	10	100
2 to 3 feet	$5.00	$40.00

Bridal Wreath

(Spirea Van Houttei)

Of graceful habit. Snow white flowers in panicles appear in May and June. Grows 5 to 6 feet tall.

Price	10	100
2 to 3 feet	$5.00	$40.00

Snowberry

(Symphoricarpos Alba)

Small pink flowers in July, followed by large white berries in the late summer and fall. Grows 4 to 5 feet high.

Price	10	100
2 to 3 feet	$5.00	$40.00

Coral Berry

(Symphoricarpos Rubra)

Produces a wealth of red or purplish berries, remaining on the branches all winter. Flowers greenish red in summer. Very showy in early winter.

Price	10	100
2 to 3 feet	$5.00	$40.00

Purple Persian Lilac

(Syringa Persica)

The old fashioned Lilac. Lavender flowers, bloom in May. Grows 8 to 12 feet.

Price	10	100
2 to 3 feet	$6.00	$50.00

White Persian Lilac

(Syringa Persica Alba)

Best of white lilacs. Very fragrant. Heavy flowers.

Price	10	100
2 to 3 feet	$7.50	-----

THE D. HILL NURSERY CO., Inc.

Evergreen Specialists—Largest Growers in America

DUNDEE, ILLINOIS

A WORD OF APPRECIATION

We wish here to express sincere thanks to our many friends and patrons who have written kind words relative to the quality of stock and treatment they have received from us the past season. We greatly appreciate these expressions of confidence and shall endeavor to maintain the reputation they have so kindly given us.

HILL QUALITY

The name of D. Hill has come to be synonymous with "High Quality" in Evergreens. Over half a century of conscientious effort, unbounded enthusiasm, a close study of the value of every new specie introduced; and above all, an ambition to make new friends and keep the old, has been the method by which this high position has been reached.

YOUR SUCCESS WITH OUR STOCK

is a matter in which we are mightily interested. Therefore we endeavor to do everything reasonable within our power to help you succeed with the stock we send you, because we love trees and want you to enjoy them also. No firm is more careful in filling orders; we use every reasonable means to learn the customer's wishes without delaying the shipment. Your interests are our interests, and we present you this 1924 catalog, confident that we merit your trade, and assure you of the best treatment, whether the order is large or small.

Special Offer No. 100

HILL'S MUGHO PINE

(Pinus Mugho Compacta)

1 to 1½ feet Balled and Burlapped

$3.25 Each

Truly a sensational triumph in Evergreen growing. It excites the wonder and admiration of all. The Hill strain, which we have developed through years of type selection is a low, close, compact grower, having many stems and is of excellent green color. The branches in the Spring tipped with the new growth, closely resemble tiny candlesticks over the entire tree.

It should be in every lawn or garden of every lover of beautiful Evergreens. Described by an eminent horticulturist as a "marvel of rich beauty." It grows to perfection in all parts of the country and is absolutely hardy.

Thousands took advantage of this wonderful offer last season, and many expressed great surprise at the magnificence of the tree. The illustration shows the tree dug with ball of earth and burlapped ready to box and ship to you.

As our friends become acquainted with it they join us in admiration of its exquisite form and delicate beauty.

HILL'S 15 GREAT OFFERS

For Spring, 1924, Delivery

Hills Evergreens Grow
BEST FOR OVER HALF A CENTURY

To induce beginners and others to try a sample of my stock, I offer the following 15 Great Offers, everything No. 1. Ever since my Evergreen business was established—and that's over 50 years ago—my motto has always been: "Give every customer complete satisfaction." Living up to that motto all these years, together with constant, never-tiring experiment and careful growing methods, have combined to give Hill's Evergreens a national reputation for quality and have enabled me to build up the largest Evergreen business in America. No matter where you live in the U. S. A., I guarantee that all trees reach you in first-class condition, or money back or shipment duplicated, as you prefer. What could be fairer?

D. HILL, Pres.

You will find the leading varieties of the world's choicest Evergreens, Roses and Shrubs shown in this catalog. And, all at low grower's prices, shipped direct to you from the largest Evergreen Nursery in America. Read our generous guarantee. Nearly 70 years of experience stands back of every order we send out.

FREE PREMIUM -

We will give one choice Rose, value 75¢ (our selection) with every order for $10.00 or more received before March 1st.

WHEN TO ORDER -

Send your order in right away and you are then sure of getting what you want. Your trees will be reserved for you. Some of the choice items may be sold out before shipping time. If you want early shipment, order now.

TIME OF SHIPMENT -

Usually we start shipping about April 10th or 15th, depending upon the season, and continue until May 15th. This is an ideal time to plant.

Don't overlook the 15 Great Money Saving Offers shown on the green price list enclosed with the catalog. Be sure to write if there is any special information you want. With thanks for your inquiry, we are

Yours very truly,

THE D. HILL NURSERY CO.
